

# Humphreys County Health Network

Established 1997

Structured according to the Governing Rules adopted in January 1998.

Guided by a three member Executive Committee.

Membership is open to health care providers, social service agencies, schools, and residents interested in health outcomes in Humphreys County.

Meet monthly for a luncheon meeting. A different HCHN member hosts the meeting each month.

Doctors participate via Medical Staff meetings at the hospital.

# Original Mission Statement

- ❑ Develop Programs aimed at raising the health status of the citizens of Humphreys County, Mississippi.
- ❑ Develop programs aimed at improving access to and coordination of local primary health care services in Humphreys County, Mississippi.
- ❑ Provide a more integrated health care system in Humphreys County, Mississippi through increased communication and cooperation of local primary health care and social services providers.
- ❑ Monitor the health status of the population by the regular collection and analysis of health care data in Humphreys County, Mississippi.

Revised Mission Statement adopted at the 2001 Strategic Planning Meeting:

**Develop a healthier Humphreys County population.**

# HCHN Accomplishments

- ❑ 6<sup>th</sup> Grade Hepatitis B Vaccination Program (completed 5 years of the program in the public and private schools).
- ❑ Health Care Providers Resource Manual: Distributed to health care providers, social service providers, and schoolteachers in 1999.
- ❑ Humphreys County Health Care: Providers and Services: mailed to every household in Humphreys County in 2001.
- ❑ Mississippi Health Benefits Enrollment Outreach: resulted in enormous increases in Medicaid and CHIP enrollment in Humphreys County.

## **HCHN Accomplishments (continued)**

- ❑ Prenatal Packets: over 300 packets have been distributed in Humphreys County. Contain useful informational brochures provided by the Mississippi Chapter of the March of Dimes and the Mississippi State Department of Health.
- ❑ Peer Health Advisors: Train students as Peer Health Advisors using the CHAN model.
- ❑ “Health Advisors to Health Professionals” Program: Groom high school students for entrance into health professions training programs.
- ❑ Commissioned health survey of 500 Humphreys County households (February and March, 2003).
